### MAGI Model CTA Updated

The Model CTA has a few minor updates.

### Join MAGI today

MAGI's flexible model clinical trial agreement streamlines the process of negotiating clinical trial agreements, thereby taking months out of the drug development timeline and speeding medical products to market. It also reduces study start-up costs and aggravation for sponsors, sites and CROs. Our 1,200+ current members represent most of the major players in the industry.

Membership is free. Members agree to read our model CTA and suggest questions and improvements. By participating, you are not obligating your organization to use the model agreement. Learn more about joining MAGI or sign up today at <http://www.firstclinical.com/magi/>
